

Diagel

CATS & DOGS WITH DIARRHOEA OR CONSTIPATION

Why should we use DIAGEL?

1. What is DIAGEL?

DIAGEL is a concentrated feed supplement developed for the use of dogs and cats with digestive disorders such as diarrhoea or constipation. Diagel was designed by a team of veterinarians and nutritionists for both veterinarians and the needs of animal owners.

2. What Active Ingredients does DIAGEL contain?

- Dextrose
- Sodium Bicarbonate
- Sodium Citrate
- Potassium Chloride
- Magnesium Hydroxide
- Psyllium Husk extract
- Vitamin B1 (Thiamine)
- Vitamin B2 (Riboflavin)
- Vitamin B6 (Pyridoxine)
- Nicotinic Acid (Niacin)
- Pantothenic acid.

3. Which are the key features of DIAGEL?

DIAGEL may be fed during periods of diarrhoea or constipation.

- Restores the balance of electrolytes and glucose
- Supports the restoration of water balance
- Forms gel (mucous) in intestines. This helps to soften constipated intestinal content
- Protects damaged intestinal mucosa
- Binds pathogens, toxins and removes them together with the faeces.

4. Is DIAGEL intended for a specific breed?

DIAGEL is suitable for all dog and cat breeds.

5. Will DIAGEL help with diarrhoea?

Yes, the Electrolytes restore the glucose & electrolyte balance, reducing depression and helping recovery from diarrhoea. Water soluble fibers also form a gel (mucous) in the intestine increasing water and nutrient absorption.

6. Will DIAGEL help with constipation?

Yes, the Non digestible water soluble fibers form a gel (mucous) in the intestine and help to soften faeces relieving constipation.

7. What is the recommended feeding rate?

DIAGEL can be administered with food 2-3 times daily or be dissolved in hand-warm water, 5g DIAGEL per 125ml of water. (*1 tea spoon contains approx. 5g)

Dogs: 1/2 sachet (5g) per 10kg of body weight

Cats: 1/4 sachet (2.5g)

Important: Food and water that contains Diagel must be consumed immediately after mixing. Leftover mix should be thrown away.

Recommended period of use: 1 - 7 days.

8. What about the safety and stability of the product over time?

All of Mervue products, including DIAGEL have been evaluated to ensure their compatibility and stability over time.

Diagel Supports:

• Restores the balance of electrolytes and glucose

• Supports the restoration of water balance

• Protects damaged intestinal mucosa

• Binds pathogens, toxins and removes them together with the faeces.

Feeding Instructions:

DIAGEL can either be given with food 2-3 times daily

or

can be dissolved in hand-warm water. 5g per 125ml of water.

Dog : 1/2 sachet (5g) per 10kg of body weight.
Cat : 1/4 sachet (2.5g)

Active Ingredients

Dextrose	Vitamin B1 (Thiamine)
Sodium Bicarbonate	Vitamin B2 (Riboflavin)
Sodium Citrate	Vitamin B6 (Pyridoxine)
Potassium Chloride	Nicotinic Acid(Niacin)
Magnesium Hydroxide	Pantothenic acid
Psyllium Husk extract	

Storage Conditions:

Store in a dry place (between 5-28°C) in original container. Keep out of direct sun light. Do not freeze.

Precautions: Keep out of reach of children. For animal use only. Do not exceed recommended amount. Consult your veterinary surgeon before use.
